The System of Receiving, Pursuing, Handling, and Responding to the Applicants' Complaints about Business Licenses

"The System of Receiving, Pursuing, Handling and Responding to the Applicants' Complaints about Business Licenses" is a project that aims to improve the efficiency of the business licensing process in Pakistan. The project involves the development of a digital platform that will allow businesses to apply for licenses online and track the status of their applications. The platform will also provide a mechanism for businesses to file complaints about the licensing process and receive timely responses from the relevant authorities. The project is expected to be completed by the end of 2023.
